SHEET 3 OF 4 SHEETS

FILENAME: T:\2012\2126169\DWG\WLE#3 MAINT_DREDGING COE PLANS.dwg

TOTAL MAINTENANCE DREDGING REQUIRED19,309 Cu. Yds. (5.3 Acres)

1. In order to ensure the safety of all parties, the permittee shall contact the Louisiana ONE CALL System (1-800-272-3020), a minimum of 48 hours prior to the commencement of any excavation (digging, dredging, jetting, etc.) or demolition activity.
2. There shall be no unreasonable interference with navigation by the existence or use of the activity. The applicant will install and maintain any safety lights, signs and signals prescribed by the United States Coast Guard, through regulations or otherwise, on authorized structures or facilities or on equipment used in performing the work under the authorization.
3. The proposed disposal area for dredged material will be off-site in a non-wetland location in order to reduce adverse environmental impacts.
4. The proposed production barge will be utilized for oil storage during low-water periods. The barge will be placed on-site in and around the month of April and will be removed during the months of August or September depending on water levels in the Atchafalaya Basin. Yearly installation and removal will be dependent upon water levels and not designated to the months described previously. Proposed pilings and pile clusters will not be removed and will be utilized on a yearly basis.
